뿐 DISPLAY AND BUTTONS

－Some models may have a screw lock type crown．If your watch does，refer to the＂SCREW LOCK TYPE CROWN＂section on the next page．
－Simplified illustrations may be used in the following sections of this manual

## SCREW LOCK TYPE CROWN

－Some models may have a screw－lock mechanism that can securely lock the crown by screw when they are not being operated．
－Locking the crown will help to prevent any operational errors and enhance the water resistant quality of the watch．
－It is necessary to unlock the screw lock type crown before operating it Once you have finished operating the crown，make sure to relock it
－How to use the screw lock type crown Keep the crown securely locked unless you need to operate it ［How to unlock the screw lock type crown］
Jurn the crown counterclockwise．
The crown is unlocked and can be operated．

How to lock the screw lock type crown］
Once you have finished operating the crown，turn it clockwise while gently pressing it in toward the watch body until it stops．

When locking the crown，turn it slowly with care，ensuring that the screw is properly engaged．Be careful not to forcibly push it in，as doing so may damage the screw hole in the case．

## ADJUSTING THE HAND POSITION

$\stackrel{\Im}{\mathscr{-}}$ - Before setting the time, be sure to check that the STOPWATCH hands are in " 0 " position when the stopwatch is reset. (For resetting the stopwatch, see "STOPWATCH")

- If any of the STOPWATCH hands does not return to " 0 " position, follow the procedure below.

STOPWATCH second hand

TIME/CALENDAR SETTING

Pull out to first click and turn clockwise until the previous day's date appears.

Pull out to second click when Second hand is at the 12 o'clock position.

Turn clockwise until the desired date appears.

Set Hour and Minute hands.
$\nabla$
Push back in to normal position in accordance with a time signal.

## STOPWATCH

- The measured time is indicated by small STOPWATCH hands that move $\stackrel{\infty}{ \pm}$ independently of the center and 24 -hour hands.

## HOW TO READ THE HANDS

- Ex. : 15 minutes and 10 seconds

8

## NOTES ON USING THE WNATCH

- The STOPWATCH minute hand moves in correspondence with the STOPWATCH second hand.

## TIME/CALENDAR SETTING

- Before setting the time, be sure to stop and reset the stopwatch
- Do not set the date between 9:00 p.m. and 1:00 a.m. Otherwise, the date may not change properly. If it is necessary to set the date during that time period, first change the time to any time outside it, set the date and then reset the correct time.
- The 24 -hour hand moves correspondingly with the hour hand
- When setting the hour hand, be sure to check that the 24 -hour hand is correctly set.
- When setting the minute hand, advance it 4 to 5 minutes ahead of the desired time and then turn it back to the exact time.
- Do not press any button with the crown at the second click. Otherwise, the STOPWATCH hands move and resetting them is made necessary.

STOPWATCH

- Do not pull out the crown while the stopwatch is counting. If it is pulled out, the stopwatch operation cannot be made
- When the stopwatch is reset, it takes up to 40 seconds for the STOPWATCH second and minute hands to return to " 0 " position.

## BATTERY CHANGE

2

## A WARNING

## CAUTION

The miniature battery which powers your watch should last approximately 2 years. However, because the battery is inserted at the factory to check the function and performance of the watch, its actual life once in your possession may be less than the specified period. When the battery function. For battery replacement, AUTHORIZED SEIKO DEALER and request SEIKO SR920SW battery.

- If the stopwatch is used for more than 60 minutes a day, the battery life may be less than 2 years.
- Do not remove the battery from the watch
- If it is necessary to take out the battery, keep it out of the reach of children. If a child swallows it, consult a doctor immediately.
- Never short-circuit, heat or otherwise tamper with the battery, and never expose it to fire. The battery may burst, become very hot or catch fire.
- The battery is not rechargeable. Never attempt to recharge it, as this may cause battery leakage or damage to the battery.
